Entertainment complex

The Little Terns of Gronant

The Little Terns of Gronant project is a partnership between RSPB CYMRU, Presthaven Sands Holiday Park and Denbighshire County Council and has been made possible via the RSPB Aren't Welsh Birds Brilliant! project.

Our Commitment

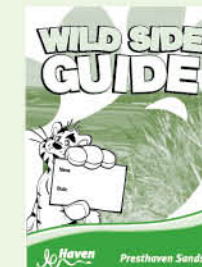

Presthaven Sands Holiday Park firmly believes in providing families with a leisure experience that allows them to spend time together in a safe and attractive environment. We also recognise the need for sustainable tourism when offering such experiences.

Therefore, our team is committed to enhancing the aesthetic and wildlife appeal of Presthaven Sands Holiday Park. In addition to this commitment, we are dedicated to educating guests about the importance of natural areas surrounding Presthaven Sands Holiday Park and supporting organisations that maintain them.

The Gronant and Talacre Dunes has been designated a SSSI (Site of Specific Scientific Interest), which is recognised at a European level because of its ecological significance. This area contains a special combination of sand dune habitats which provide an important home for rare species of plants and animals. We appreciate you helping us to keep this a place special.

David Bellamy Conservation Award

The David Bellamy Conservation Awards aim to recognise caravan parks and campsites in the UK that are environmentally friendly and encourage others to follow suit. In 2003 Presthaven Sands was awarded the Gold Conservation Award for its commitment to the environment.

Why not find out more about how special the Park is? Pick up your free copy of Presthaven Sands Wild Side Guide at the next David Bellamy Family Park Rangers session...

Wi Fi access available for casual internet browsing in our Mash and Barrel (inc terrace)
